Everyone Deserves Access to Hope

At Happiness Matters Foundation, we believe hope and happiness belong to everyone.

We're committed to creating a website that is welcoming, inclusive, and accessible to as many people as possible, regardless of ability, technology, or circumstance.

Accessibility isn't just something we check off a list. It's part of how we live our mission.

Our Commitment

We continually work to improve the accessibility and usability of our website by:

- Using clear, readable language whenever possible.
- Designing pages that are easy to navigate.
- Providing meaningful headings and logical page structure.
- Using color and contrast that support readability.
- Adding descriptive alternative text to images whenever appropriate.
- Working toward compatibility with commonly used assistive technologies and modern web browsers.

As our website grows, accessibility remains an ongoing priority rather than a one-time project.

We Know We're Still Learning

While we strive to make every page accessible, we recognize there may be areas that can be improved.

Technology evolves. Websites evolve. So do we.

If you encounter a barrier while using our website, we'd genuinely like to know.
